CATÁLOGO DE PARTES

INTRODUCCIÓN

Esta publicación contiene las referencias para el modelo Discover 135 en sus versiones **(KS) *SPORT*** y **(ES) *SUPREME***.

La versión (KS) **SPORT** corresponde a los vehículos ensamblados a partir del **Nº de motor JNGBPK01232 y chasis Nº MD2JNB2Z08VK00009**

La versión (ES) **SUPREME** corresponde a los vehículos ensamblados a partir del **Nº de motor JNGBPG75340 y chasis Nº MD2JNB1Z08VG00253**

En el interior del catálogo en la columna "CANT./VEH." están detalladas las cantidades por referencia para cada versión.

Recuerde hacer los cambios de aceite de motor **(1.000 cc de Shell Advance 20W50 API SJ + JASO MA)** según la TABLA DE MANTENIMIENTO PERIÓDICO (Máximo cada 2.000 Kms. de recorrido).

No lave la moto con agua a presión, ni con vapor, ni con el motor caliente. Estos procedimientos pueden ocasionar daños en sus componentes eléctricos.

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: www.auteco.com.co accediendo al link repuestos/accesorios. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco-Kawasaki.

Todos los derechos reservados, No se permite la reproducción total o parcial de este libro, en ninguna forma o por ningún medio, ya sea electrónico o mecánico, incluido fotocopiado, sin permiso escrito de Autotecnica Colombiana S.A. "AUTECO S.A."

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The central part is a complex housing (3) with a flange. Below it is a separate component (1) with internal parts. Various bolts, washers, and seals are shown being installed into the housing. The numbered parts are:

- 1: A component with internal parts, shown below the main housing.
- 2: Two different types of seals or gaskets.
- 3: The main housing or body of the assembly.
- 4: A cylindrical component, possibly a piston or a plug.
- 5: A circular flange or cover plate.
- 6: A small bolt or screw.
- 7: A small washer or spacer.
- 8: A long bolt or screw.
- 9: A bolt with a washer.
- 10: Two different types of bolts or screws.
- 11: Two different types of washers or spacers.

This exploded view diagram illustrates the assembly of a carburetor. The components are numbered as follows:

- 1**: Main carburetor body (top view).
- 2**: Two screws for the float bowl gasket.
- 3**: Float bowl gasket.
- 4**: Float bowl.
- 5**: Jet needle assembly.
- 6**: Jet needle.
- 7**: Jet needle O-ring.
- 8**: Jet needle spring.
- 9**: Jet needle spring pin.
- 10**: Jet needle pin.
- 11**: Jet needle pin O-ring.
- 12**: Jet needle pin.
- 13**: Jet needle pin O-ring.

This diagram shows an exploded view of a mechanical assembly. The main assembly consists of a long shaft (8) with a flange at one end. A spring (7) is mounted on the shaft, with a washer (9) and a nut (6) at the top. A bracket (3) is attached to the shaft. A dashed line indicates the assembly path for the bracket. An inset shows the bracket (3) with a pin (4) and a spring (5) attached. A separate part (1) is shown to the right, and a long tube (2) is shown above the bracket.

This diagram illustrates the assembly of a piston and connecting rod. The main assembly shows the piston (1) with its rings (2) being inserted into the cylinder bore (3). The connecting rod (4) is shown below the piston, and the crankshaft (5) is shown to the right. A detailed inset view shows the piston rings (2) being installed into the piston grooves (3). The callouts are: 1 - Piston, 2 - Piston rings, 3 - Piston grooves, 4 - Connecting rod, and 5 - Crankshaft.

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The parts are numbered 1 through 19. The central assembly consists of a main body (1) with a threaded section (17) and a handle (12). To the left, a large circular flange (15) is shown with a bolt (14) and a washer (15). To the right, a series of components are shown in an exploded view, including a gear (4), a shaft (13), a nut (9), a washer (5), a bolt (19), and a flange (17). Below the main assembly, a series of components are shown in an exploded view, including a bolt (10), a nut (11), a washer (7), a flange (18), a washer (8), a nut (2), a bolt (3), and a flange (6).

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A bracket or support arm with a flange.
- 2**: A bracket or support arm, similar to part 1 but with a different flange profile.
- 3**: A long, hollow cylindrical shaft or tube.
- 4**: A small, circular component with a flange, possibly a bearing or a seal.
- 5**: A central cylindrical component with a series of longitudinal slots or grooves.
- 6**: A small, cylindrical pin or bolt.
- 7**: A small, rectangular component, possibly a washer or a spacer.

The diagram illustrates the relative positions and assembly sequence of these parts. Part 5 is the central component, with parts 1 and 2 positioned to attach to its ends. Part 3 is shown as a shaft that would pass through the central assembly. Part 4 is positioned to fit onto the shaft, and part 6 is shown as a pin that would secure the assembly.

This diagram shows an exploded view of a mechanical assembly. The main component is a cast housing (2) with a central circular opening. To the left is a separate metal plate (5) with a complex shape and several mounting holes. Various bolts (3, 8, 12, 14) and a nut (6) are shown being inserted into the housing. A curved metal piece (13) and a hose (11) are attached to the top and side of the housing. A small bracket (4) is also shown. At the bottom, there are two circular components (7 and 9) and a small pin (10). The numbers 1 through 14 identify each individual part in the assembly.

This exploded view diagram illustrates the assembly of a motorcycle engine crankcase. The main components shown are the crankcase halves (1), the crankshaft (2), the connecting rod (3), the piston (4), the piston pin (5), the piston rings (6), the piston pin clip (7), the piston pin nut (8), the piston pin lock (9), the piston pin lock nut (10), the piston pin lock washer (11), the piston pin lock clip (12), the piston pin lock clip nut (13), the piston pin lock clip (14), the piston pin lock clip (15), the piston pin lock clip (16), the piston pin lock clip (17), the piston pin lock clip (18), and the piston pin lock clip (19). The diagram shows the crankcase halves (1) with the crankshaft (2) and connecting rod (3) assembly. The piston (4) is shown with the piston rings (6) and piston pin (5). The piston pin clip (7) is shown with the piston pin nut (8) and piston pin lock (9). The piston pin lock nut (10) is shown with the piston pin lock washer (11) and piston pin lock clip (12). The piston pin lock clip nut (13) is shown with the piston pin lock clip (14). The piston pin lock clip (15) is shown with the piston pin lock clip (16). The piston pin lock clip (17) is shown with the piston pin lock clip (18). The piston pin lock clip (19) is shown with the piston pin lock clip (19).

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor housing. The main body is labeled 1. Key sub-components and their assembly points are indicated by numbered callouts:

- Part 2:** A screw used to secure the lower housing cover (9).
- Part 3:** A small O-ring or seal that fits into a groove on the main body (1).
- Part 4:** A gasket or seal plate that fits between the main body (1) and the upper housing cover.
- Part 5:** A screw used to secure the upper housing cover.
- Part 6:** A pin or clip used to secure the side of the main body (1).
- Part 7:** A small circular component, possibly a filter or cap, for the inlet/outlet.
- Part 8:** A small O-ring or seal for the inlet/outlet.
- Part 9:** The lower housing cover, which features a curved top and a ribbed bottom section.
- Part 10:** A curved, U-shaped component, possibly a filter or a guide.
- Part 11:** A small screw or pin used to secure the U-shaped component (10).
- Part 12:** A small, dark, rectangular component, possibly a seal or a filter element, located near the inlet/outlet.
- Part 13:** Another U-shaped component, similar to part 10, positioned above the main body.

The diagram uses dashed lines to show the alignment and fit of the parts. A small inset on the right shows the fully assembled unit with two long tubes extending from the top.

[illegible]

Exploded view diagram of a mechanical assembly, likely a pump or motor, showing various components labeled 1 through 18. The diagram includes a large central assembly (13) and several sub-assemblies (14, 15, 16, 17, 18) shown in exploded view.

Key components and their labels:

- 13**: Main central assembly.
- 14**: Large circular component with a central hub.
- 15**: Large circular component with a central hub.
- 16**: Large circular component with a central hub.
- 17**: Large circular component with a central hub.
- 18**: Large circular component with a central hub.
- 1**: Small circular component.

This diagram illustrates the exploded view of a mechanical assembly, likely a valve or actuator mechanism. The components are numbered as follows:

- 1:** Main bracket or housing.
- 2:** Spring component.
- 3:** Lever or arm.
- 4:** Small pin or screw.
- 5:** Cap or end nut.
- 6:** Main shaft or rod.
- 7:** Gear or cam.
- 8:** Spring.
- 9:** Washer or spacer.
- 10:** Nut or washer.
- 11:** Lever or arm.
- 12:** Pin or screw.
- 13:** Gear or cam.
- 14:** Spring.
- 15:** Washer or spacer.
- 16:** Washer or spacer.

The diagram shows the assembly sequence, with parts 1 through 16 arranged around the central shaft (6). A dashed box highlights a sub-assembly (1) which includes a bracket (1), a spring (2), and a lever (3).

[illegible]

This exploded view diagram illustrates the assembly of a carburetor. The components are numbered as follows:

- 1**: Main carburetor body.
- 2**: Jet needle and its support assembly.
- 3**: Jet needle.
- 4**: Jet needle support.
- 5**: Gasket for the main body.
- 6**: Screws for the main body.
- 7**: Throttle cable bracket.
- 8**: Throttle cable end fitting.
- 9**: Throttle cable.
- 10**: Throttle cable bracket.

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A large rectangular frame or housing.
- 2**: A small pin or fastener.
- 3**: A small circular component, possibly a bush or washer.
- 4**: A rectangular panel with a grid pattern.
- 5**: A rectangular panel with a central cross-shaped structure.
- 6**: A small pin or fastener.
- 7**: A small circular component, possibly a bush or washer.
- 8**: A small pin or fastener.
- 9**: A small circular component, possibly a bush or washer.
- 10**: A large, curved, ribbed component, possibly a fan or a cover.
- 11**: A small pin or fastener.
- 12**: A small circular component, possibly a bush or washer.
- 13**: A small rectangular component, possibly a bracket or a plate.

[illegible]

This exploded view diagram illustrates the assembly of a rear suspension component. The main cylindrical part (1) features a mounting bracket (3) with a 150mm dimension indicated. Various bolts and nuts (2, 3, 4, 5, 6, 7, 8, 9, 10) are shown being installed into the assembly. A separate view shows a bracket (4) being attached to the main body. The diagram uses dashed lines to show the alignment and fit of the parts.

A technical diagram of a seat assembly. It shows a large, dark, contoured seat (1). A cable (2) is connected to the seat and runs down to a bracket (3). The bracket (3) has three circular openings. A screw (4) is shown being inserted into the bracket. A small rectangular plate with a screw is also shown, connected to the cable (2) by a dashed line.

[illegible]

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A central housing or bracket with mounting holes.
- 2**: A small rectangular block, likely a pin or spacer.
- 3**: A cylindrical component with a flange, possibly a pulley or a bush.
- 4**: Two screws or bolts used for mounting.
- 5**: A large gear or pulley with many teeth, mounted on a shaft.
- 6**: A small cylindrical pin or bush.

Dashed lines indicate the assembly alignment and the relative positions of the parts.

This diagram is an exploded view of a mechanical assembly, likely a suspension or steering component. It shows various parts and sub-assemblies arranged in their relative positions. The components are identified by numbered callouts:

- 1:** A central hub or bearing assembly.
- 2:** A top mounting bracket or control arm.
- 3:** Various small pins, washers, or spacers.
- 4:** A large, curved structural component, possibly a control arm or wishbone.
- 5:** A lower mounting bracket or knuckle assembly.
- 6:** A small circular component, possibly a bush or seal.
- 7:** A small rectangular component, possibly a shim or spacer.
- 8:** A small pin or bolt.
- 9:** A larger bracket or mounting plate.

The diagram uses solid lines for the main components and dashed lines to indicate the assembly path and alignment of the smaller parts.

This diagram illustrates the assembly of a vehicle chassis, showing the relationship between various components. The main frame (1) is the central structural element. Key components and their assembly points are indicated by numbered callouts:

- 2, 3, 4, 5:** A series of bolts or nuts used to secure the upper suspension or steering components to the frame.
- 6, 7, 8, 9, 10, 11:** A set of components including a control arm (10), a ball joint (6), a bush (8), a shock absorber (9), and a lower control arm (11), which are part of the front suspension system.

The diagram uses dashed lines to show the alignment and fit of the parts, ensuring correct installation.

This diagram illustrates the assembly of a mechanical component, likely a hinge or bracket, using 11 numbered parts. The main assembly is shown in a perspective view, with two dashed boxes providing detailed views of specific sub-assemblies.

- Part 1:** A small bracket or plate with a hole, shown in the bottom-left dashed box.
- Part 2:** A small circular component, possibly a washer or spacer, located near the main assembly.
- Part 3:** A large, rectangular component with a textured surface, shown in the top-right dashed box.
- Part 4:** A long, thin, rectangular component, possibly a hinge pin or a long screw, shown in both dashed boxes.
- Part 5:** A small circular component, possibly a washer or spacer, located near the main assembly.
- Part 6:** A small circular component, possibly a washer or spacer, shown in the bottom-left dashed box.
- Part 7:** A small circular component, possibly a washer or spacer, shown in the bottom-left dashed box.
- Part 8:** A long, thin, rectangular component, possibly a hinge pin or a long screw, shown in the main assembly.
- Part 9:** A small circular component, possibly a washer or spacer, shown in the bottom-left dashed box.
- Part 10:** A small circular component, possibly a washer or spacer, shown in the bottom-left dashed box.
- Part 11:** A small circular component, possibly a washer or spacer, shown in the bottom-left dashed box.

The diagram shows the main assembly with parts 1, 2, 3, 4, 5, 8, and 11. The bottom-left dashed box shows parts 1, 4, 6, 7, 9, 10, and 11. The top-right dashed box shows parts 3, 4, 5, 6, 7, 8, 9, 10, and 11.

This exploded view diagram illustrates the assembly of a mechanical component, likely a bracket or support arm. The parts are numbered as follows:

- 1**: The main curved bracket or support arm.
- 2**: A smaller curved bracket or support arm.
- 3**: A rectangular plate or base.
- 4**: A long, thin rectangular plate or support.
- 5**: A cylindrical component, possibly a roller or pulley.
- 6**: A small pin or fastener.
- 7**: A small circular component, possibly a washer or spacer.
- 8**: A small circular component, possibly a washer or spacer.
- 9**: A small circular component, possibly a washer or spacer.
- 10**: A small pin or fastener.
- 11**: A curved plate or support.
- 12**: A small circular component, possibly a washer or spacer.
- 13**: A small circular component, possibly a washer or spacer.

The diagram shows the relative positions and assembly sequence of these components. For example, part 1 is shown with parts 10 and 11 being attached to its ends. Part 2 is shown with parts 10 and 11 being attached to its ends. Part 3 is shown with parts 6, 7, 8, and 9 being attached to its top surface. Part 4 is shown with parts 5, 6, 7, 8, and 9 being attached to its top surface. Part 5 is shown with parts 12 and 13 being attached to its bottom surface.

This exploded view diagram illustrates the assembly of a car door latch mechanism. The components are numbered as follows:

- 1**: A small cylindrical pin or bush.
- 2**: A rectangular latch body with a hook.
- 3**: A small circular washer or spacer.
- 4**: A small circular washer or spacer.
- 5**: The main door latch housing, shown in a partially assembled state.
- 6**: A small cylindrical pin or bush.
- 7**: A small circular washer or spacer.
- 8**: A small circular washer or spacer.
- 9**: The main door latch housing, shown in a fully assembled state.
- 10**: A small cylindrical pin or bush.
- 11**: A small cylindrical pin or bush.
- 12**: A small cylindrical pin or bush.
- 13**: A small cylindrical pin or bush.
- 14**: A small rectangular component, possibly a latch tip or indicator.
- 15**: A small cylindrical pin or bush.
- 16**: A small cylindrical pin or bush.
- 17**: A small cylindrical pin or bush.

The diagram shows the assembly sequence: the latch body (2) is inserted into the housing (5) using pin (1). The housing (5) is then mounted onto the door frame (9) using pins (6, 10, 15) and washers (3, 4, 7, 8). The latch tip (14) is attached to the housing (5) using pin (12). The indicator (13) is attached to the housing (5) using pin (11). The final assembly is shown in the bottom right view.

28

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A rectangular base plate with a grid of holes.
- 2**: A long, thin cylindrical rod.
- 3**: A small pin or screw.
- 4**: A coiled spring with a hook at one end.
- 5**: A short, thick cylindrical sleeve.
- 6**: A long, curved lever arm with a hook at one end.
- 7**: A bracket or support structure.
- 8**: A small pin or screw.
- 9**: A small circular component, possibly a washer or bush.
- 10**: A small circular component, possibly a washer or bush.

The diagram illustrates the assembly of these parts into a functional mechanism, likely a door latch or a similar locking device.

[illegible]

This exploded view diagram illustrates the assembly of a bicycle wheel. The central component is the wheel rim with spokes. Surrounding it are various parts labeled with numbers 1 through 13. The components include:

- 1:** A small screw or pin.
- 2:** Two different types of washers or spacers.
- 3:** A small cylindrical component, possibly a bush or spacer.
- 4:** A small nut or washer.
- 5:** A small washer or spacer.
- 6:** A small washer or spacer.
- 7:** A large circular disc with multiple holes, likely a brake rotor or a hub flange.
- 8:** A small washer or spacer.
- 9:** A small screw or pin.
- 10:** A large circular component, possibly a hub or a brake disc.
- 11:** A large cylindrical component, likely a hub or a brake disc.
- 12:** A long, thin cylindrical component, possibly a axle or a long screw.
- 13:** A small nut or washer.

The diagram shows the relative positions of these parts as they would be assembled onto the wheel rim.

This exploded view diagram illustrates the assembly of a car stereo system. The components are numbered as follows:

- 1:** Main stereo unit with a long antenna wire.
- 2, 22, 23, 24, 26, 27, 28, 29, 30:** Various screws, bolts, and small electronic components.
- 3:** A small rectangular electronic module.
- 4:** A small rectangular component, possibly a fuse or relay.
- 5:** A mounting bracket or plate.
- 6:** A complex assembly of components, including a speaker and wiring, shown in a dashed box.
- 7:** A small electronic component.
- 8:** A small electronic component.
- 9:** A small electronic component.
- 10:** A mounting plate with four holes.
- 11, 12, 13:** Screws and bolts.
- 14:** A large cylindrical component, likely a speaker or subwoofer.
- 15:** A large cylindrical component, likely a speaker or subwoofer.
- 16:** A small electronic component.
- 17:** A small electronic component.
- 18:** A small electronic component.
- 19:** A small electronic component.
- 20, 21:** Two large, oval-shaped speakers.

This diagram illustrates the exploded view of a motorcycle headlight assembly. The components are numbered as follows:

- 1**: The main headlight housing, featuring a lens and a mounting bracket at the bottom.
- 2**: A lower mounting bracket or support piece.
- 3**: A small, curved mounting bracket.
- 4**: A long, narrow mounting bracket or support piece.
- 5**: A curved mounting bracket.
- 6**: A small, curved mounting bracket.
- 7**: A rectangular mounting bracket or support piece.

The diagram includes a coordinate system with a vertical axis labeled 'Z' and a horizontal axis labeled 'X'. A small arrow points to the right, indicating the direction of assembly.

This exploded view diagram illustrates the components of a trimmer head assembly. The main body of the trimmer is shown in the center. To the left, a dashed box labeled '4' contains a detailed view of the internal cutting mechanism, including a shaft with a cutting head (6), a bearing (7), a spring (8), a pin (13), and a curved guard (12). Above the main body, a dashed box labeled '1' shows a top view of the head with a screw (5) being inserted. To the right, a dashed box labeled '9' shows a side view of the head with a cable (11) being attached to a bracket (14). Other numbered parts include a small screw (2), a pin (3), a bracket (10), and a small rectangular component (14).

This exploded view diagram illustrates the assembly of an outboard motor. The components are numbered as follows:

- 1**: The main outboard motor housing.
- 2**: A bolt used to secure the lower unit cover.
- 3**: A bolt used to secure the upper unit cover.
- 4**: A mounting bracket or plate.
- 5**: A washer or spacer used in the lower unit assembly.
- 6**: A pin or clip used to secure the upper unit cover.
- 7**: A bolt used to secure the upper unit cover.
- 8**: A bolt used to secure the lower unit cover.

This exploded view diagram illustrates the assembly of a motorcycle seat. The components are labeled as follows:

- 1**: The main seat cushion, shown with its internal wiring and a connector plug.
- 2**: A small plastic component, likely a side bracket or clip, shown in two orientations.
- 3**: The seat base or frame, featuring a slatted design for the backrest and a footrest area.
- 4**: A small metal pin or clip used to secure the backrest slats.
- 5**: A bolt or screw used for mounting the seat base to the motorcycle frame.
- 6**: A small metal pin or clip used to secure the seat cushion to the base.
- 7**: A rectangular metal plate or bracket used for mounting the seat base.
- 8**: A small metal pin or clip used to secure the side bracket (2) to the seat cushion (1).
